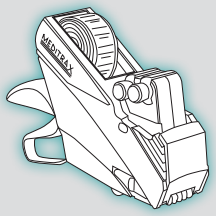
SURGERY STERILIZATION & TRACKING MODULE

MEDITRAX
SMART TRACKING SYSTEM

accountability & traceability

The MEDITRAX® Surgery Sterilization & Patient Traceability module is specifically designed for surgery requirements, it is easy for staff to use and is adaptable to many different surgery settings.

The MEDITRAX® Surgery Sterilization & Patient Traceability module is intended to identify and log every cycle of a surgery sterilizer and any equipment which has passed through this process and has been used on a patient. To provide added security for you and your patients, you must be able to identify any sterilized item or equipment that has been used on a patient, proving that it has successfully been through a decontamination and sterilization process.



features : instrument tracking standard recording

training
Austmel provides MEDITRAX® System Inservice at the point of implementation. Courses are run on a person-to-person basis ensuring rapid absorption. Advanced courses are designed to train the trainer where required. MEDITRAX® training systems comply with the AS/NZS 4815 standards and documentation.

one-on-one MEDITRAX® customer support
Austmel Pty Ltd is able to offer one-on-one support during office hours on our 1800 074 085 service. This is a valuable service to healthcare personnel who require immediate technical support to use the system. This service is a complete one-on-one person to person level. Additionally IT Remote Access Tech-Support provides quick on-line diagnosis and repair of systems to clients requiring rapid response under maintenance contracts.

documentation
MEDITRAX® documentation is built on the philosophy of paper waste minimisation, taking into account policies and procedures relating to the processing of items being sterilized in healthcare facilities. All aspects of the complex requirements are clearly and easily followed.
