Invented in 1970 by Dr. Leon Alger, practicing ophthalmologist for 40 years, the ALGERBRUSH II is used worldwide by many ophthalmologists and emergency room physicians.

At The Alger Company we feel we have a quality product at a reasonable price.

This will enable most practitioners to provide an ALGERBRUSH II for each operator.

Field tested for many years and CE marked since 1998, The Algerbrush II comes with a six-month repair/replacement warranty.
