

About Histofreezer®

Histofreezer is indicated for most common skin lesions such as common warts, plantar warts, flat warts, actinic keratoses, seborrheic keratoses, skin tags, age spots, condyloma acuminata and molluscum contagiosum.¹

Histofreezer

- Ultra-portable, one handed operation, and lesion-specific treatment times are 15-40 seconds.¹
- Clinically-proven results¹
- Results are comparable to liquid nitrogen with a lower risk of scarring²
- Requires no bulky equipment or initial large capital investment, unlike liquid nitrogen¹
- Histofreezer is CFC-Free and ozone-friendly³
- No messy or leaky cones³
- Economically priced and it has a low cost-per-treatment

HISTOFREEZER — CLINICALLY PROVEN, SAFE AND EASY-TO-USE
