

Issuing Date: 12-Dec-2016

Revision Date: 18-Jan-2021

1. Identification**Product identifier**

SDS Number: 1277748
Product Name: Water for Injection

Other means of identification

Product Code(s): AHB0304

Synonyms: None

Recommended use of the chemical and restrictions on use

Product Use: Pharmaceutical.
Product Type: Injectable solution
Uses advised against: No information available

Details of the supplier of the safety data sheet

BAXTER HEALTHCARE
33 Vestey Drive
Mt Wellington Auckland, 1060 New Zealand
Telephone: (09) 574 2400

Emergency telephone number

New Zealand: 0800 229 837 and Poison Information Centre 0800 764 766
Verisk 3E Global Incident Response Hotline +1 760 476 3962; Access Code 335625

2. Hazard(s) identification**GHS Classification**

Not classified

Label elements**Hazard statements****Other hazards which do not result in classification**

No information available

3. Composition/information on ingredients

Chemical name	CAS No.	Weight-%
Water 7732-18-5	7732-18-5	100

4. First-aid measures**Description of first aid measures**

General Advice	Treat symptomatically and supportively.
Inhalation:	Not applicable
Eye contact:	Not applicable
Skin contact:	Not applicable
Ingestion:	Not applicable

Most important symptoms and effects, both acute and delayed

No information available

Indication of any immediate medical attention and special treatment needed

Treat symptomatically. See patient package insert in shipping carton for complete information.

5. Fire-fighting measures

Suitable Extinguishing Media

Water

Specific hazards arising from the chemical

No information available

Special protective actions for fire-fighters

Fire fighters should wear proper protective equipment.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Use suitable protective equipment (Section 8). Follow all fire fighting procedures (Section 5).

Environmental precautions

See Section 12 for environmental precautions.

Methods and material for containment and cleaning up**Methods for Containment:**

Not applicable

Methods for cleaning up:

Not applicable

Precautions to prevent secondary hazards**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

7. Handling and storage

Precautions for safe handling**Technical measures/precautions:** None**Conditions for safe storage, including any incompatibilities****Technical measures and storage conditions:**

Keep containers tightly closed in a cool, well-ventilated place. Store below 30°C (86°F). Do not freeze. Avoid excessive heat.

Incompatible materials: No information available

8. Exposure controls/personal protection

Control parameters

Exposure Limits This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

Chemical name	New Zealand TWA	ACGIH TLV	Uk oes/mel:	Australia nohsc :
Water - 7732-18-5	-	-	-	-

Biological occupational exposure limits This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies.

Chemical name	New Zealand	ACGIH
Water - 7732-18-5	-	-

Appropriate engineering controls

Engineering Measures No special containment is required.

Individual protection measures, such as personal protective equipment

Eye/face protection No special protective equipment required

Hand protection Not required.

Skin and body protection Not required.

Respiratory protection No personal respiratory protective equipment normally required.

Environmental exposure controls No information available.

9. Physical and chemical properties

Information on basic physical and chemical properties

Physical state: Liquid
Appearance: Aqueous solution.
Color: Clear, Colorless.
Odor: No information available
Odor Threshold: No information available
pH: 6.0 - 8.0
Melting point / melting range: No information available
Boiling point / boiling range: No information available
Flash point: No information available
Evaporation rate: No information available
Flammability (solid, gas): No information available
Flammable limits
in air-upper (%): No information available
Flammable limits
in air-lower (%): No information available
Vapor pressure: No information available
Vapor density No information available
Density: No information available

Solubility:	No information available
Partition coefficient (n-octanol/water):	No information available
Autoignition temperature:	No information available
Decomposition temperature	No information available
Viscosity:	No information available
Explosive Properties:	No information available
Oxidizing Properties:	No information available

Other information

10. Stability and reactivity

Reactivity

No information available.

Chemical stability

Stable under recommended storage conditions

Specific methods:

Sensitivity to mechanical impact None.

Sensitivity to static discharge None.

Possibility of hazardous reactions

None under normal use conditions

Conditions to Avoid

Do not freeze. Avoid excessive heat.

Incompatible materials

No data available

Hazardous decomposition products

No data available

11. Toxicological information

Acute toxicity**Information on likely routes of exposure****Product Information**

Inhalation: Inhalation not likely under normal use conditions.

Eye contact: Not expected to cause eye irritation.

Skin contact: Not expected to cause skin irritation.

Ingestion: Not expected to be hazardous by ingestion.

Symptoms: No information available

Acute Toxicity**Numerical measures of toxicity**

Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Water 7732-18-5	> 90 mL/kg (Rat)	-	-

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Corrosivity: Not classified.

Irritation: Not classified.

Sensitization: Not classified.

Mutagenic effects: Not classified.

Carcinogenic effects: Not classified.

Chemical name	New Zealand	IARC
Water - 7732-18-5	-	-

Reproductive toxicity: Not classified.

STOT - single exposure: Not classified.

Respiratory irritation Not classified.

Narcotic effects Not classified.

STOT - repeated exposure: Not classified.

Aspiration hazard: Not classified.

12. Ecological information

Ecotoxicity

No information available

Aquatic ecotoxicity

Chemical name	Algae/aquatic plants	Fish	Crustacea
Water 7732-18-5	-	-	-

Terrestrial ecotoxicity

Chemical name	Earthworm	Avian	Honeybees
Water 7732-18-5	-	-	-

Persistence and Degradability

No information available.

Bioaccumulative potential

No information available.

Chemical name	Partition coefficient
Water 7732-18-5	-

Mobility in soil

No information available

Other adverse effects

This product does not contain any known or suspected endocrine disruptors.

Chemical name	EU - Endocrine Disruptors Candidate List	EU - Endocrine Disruptors - Evaluated Substances	Endocrine disrupting potential
Water 7732-18-5	-	-	-

13. Disposal considerations

Waste treatment methods

Waste from residues/unused products In accordance with local and national regulations

Contaminated Packaging In accordance with local and national regulations

14. Transport information

IATA Not regulated

IMDG Not regulated

15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture**New Zealand**

National regulations See Section 8 for any applicable tolerable exposure limits and environmental exposure limits

Certified handlers, tracking and controlled substance licence requirements Certified handlers are required for some substances. This includes for substances requiring a controlled substance licence, including Class 1 explosives, vertebrate toxic agents (9.3A, B, C), and certain fumigants. Class 6.1A and 6.1B substances such as pesticides also require Certified handlers. Please check the Health and Safety at Work Act 2015 for further information.

Tracking is required for some highly hazardous substances. These substances need to be under the control of an appropriately trained person or appropriately secured. Please check the Health and Safety at Work Act 2015 for further information.

Controlled substance licences are required to possess certain class 1 (explosive) and class 6 (vertebrate toxic agents or fumigants) substances. See Part 7 of the Health and Safety at Work Regulation 2017 for more information.
