

Medisafe Plus 650

Why Choose us

Medisafe Plus is the original premium brand of vaccine fridge in Australia. It is designed and built in Australia and has been protecting vaccines and medical products since 2010.

The Medisafe Plus Family of medical fridges are purpose-built for vaccine storage and are designed and built in Australia. All our medical fridges follow the "Strive for 5" National Vaccine Storage guidelines

A Medisafe Plus medical/vaccine fridge is feature packed, resulting in a vaccine storage solution that gives you peace of mind – knowing your vaccines are stored in the safest possible manner.

Medisafe Plus can tailor our solution to end user needs to allow for additional probes or temperature recording systems through the manufacturing process.

Medisafe Plus cloud monitoring is now a standard on all Medisafe Plus units, with 12 months free access to the portal. The cloud monitoring acts as an automated data logger which allows you to view and print your temperature chart with Min and Max and also data in real time on any web enabled smartphone, tablet, or computer from any location.

All units also the ability to have a BMS system plugged into the back of the unit for hospital remote monitoring.
